

Getting Started with Bitsight Vendor Risk Management

Welcome to Bitsight Vendor Risk Management (VRM). The free access to this platform gives you an easy way to review shared security information from your vendor(s). Vendor risk management helps organizations evaluate and monitor third-party cybersecurity risk, making it easier to strengthen trust, improve transparency, and keep business moving. This quick guide will show you how to get started.

Get Started

01.

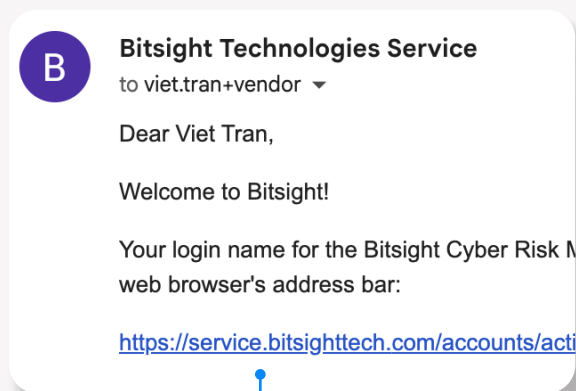

Check your Inbox

Look for an email from

support@bitsighttech.com

with subject line

“Welcome to Bitsight Technologies”

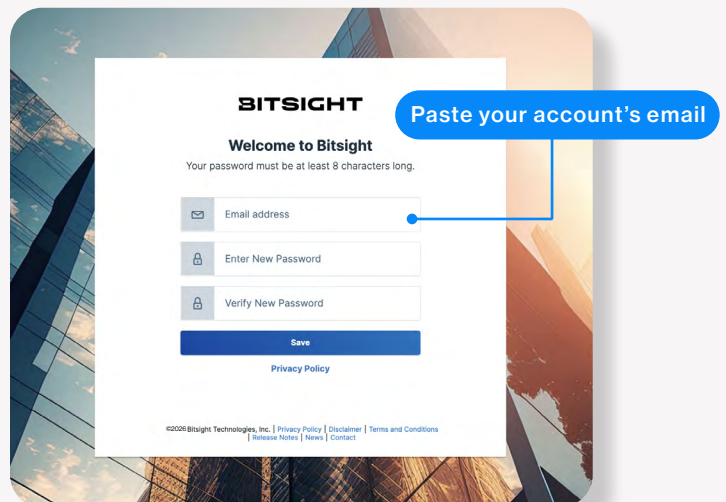

02.

Register

Click on the link in the welcome email.

Paste your account's email into the email field and set a password for your account.

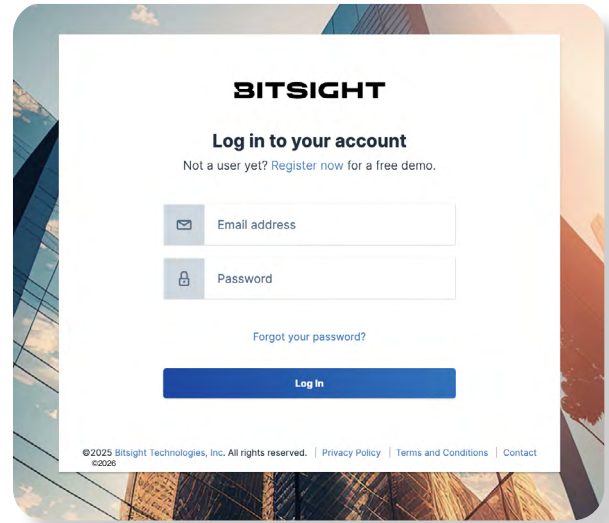

03.

Login

Access the Bitsight Platform with your new credentials

Add New Users

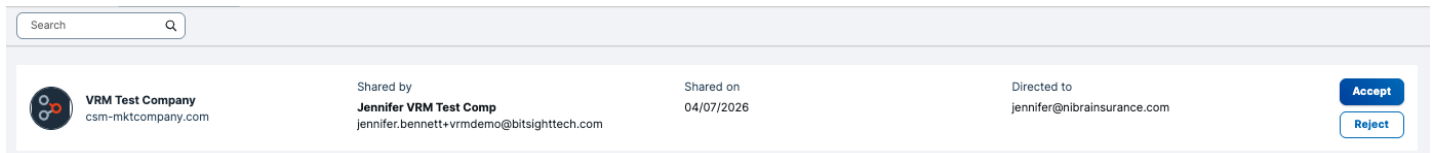

<https://help.bitsighttech.com/hc/en-us/articles/21490971050903-How-to-Add-a-User>

04.

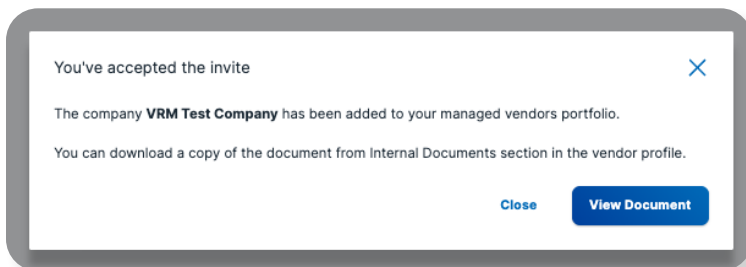

Accept the Invite

Under Vendors, you will see Incoming Shares with a numeric indicator of pending share invitations

A “Accept” may require completion of the sender’s click-wrap NDA. If so, a copy will be emailed to both parties and stored in **Vendor Profile > Internal Documents**

B “Reject” will require comments to be returned to the sender

05.

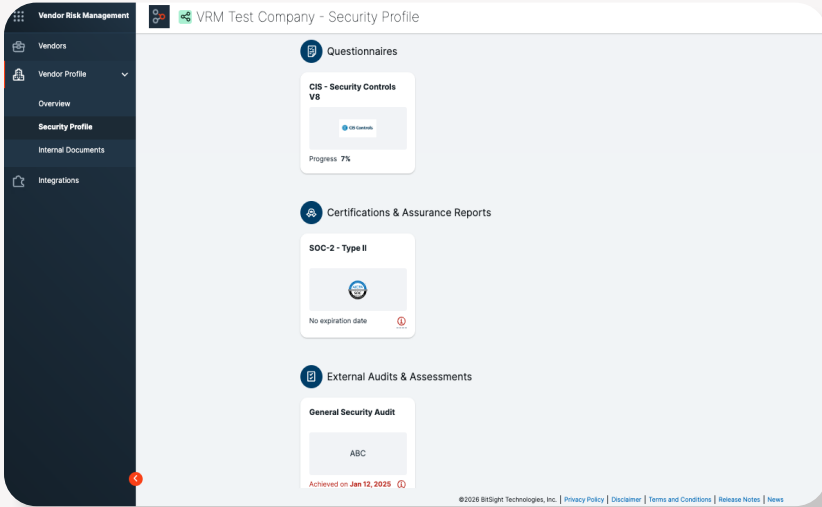

Access Vendor List

Vendors List will show all pending and accepted share sending companies

Review shared security posture

Vendor Profile > Security Profile will show all security artifacts that were shared

And this is just the beginning. With full access activated in Bitsight VRM, you can build your third-party inventory through automated invitations, consolidate document collection in one dashboard, and continuously assess vendor security hygiene. Onboard your vendors in hours, not days. Accelerate productivity, not risk.
